

Hello Members

My name is William Reynolds, I have been a resident of Bashaw Reservation almost all my life but a year and a half when I lived south of turtle lake in the early 90s. and I also work for the tribe most of my life except a couple of short time jobs, one in town of Webster the other in Falun WI when north states had there wood plant there before it closed. I was part of the fire dept when I was much younger. I started work with the summer youth when (cey) moved on to Wisconsin conservation corps and tribal fisheries as a shocker and creel clerk from there I moved on to the casino work in turtle lake in the old casino in 1992 and found out I like that employment and stayed with it in a couple of depts as a security guard and supervisor to a shift manager and in 2012 moved over to the gaming commission and in 2019 I ran for council and was elected my first term as sec/treasurer and elected for a second term where I was voted to sit as chairman. I love working for the tribe and its membership.
